## Surface coating Anti-Static agent

# ANSTEX C-200 SOLBON T-20

### 1. Features & Application

**ANSTEX C-200** 

- (1) excellent performance for Anti-static
- (2) for all plastics except fluorinated resins

**SOLBON T-20** 

- (1) applicable for food packing (registered PL)
- (2) corrosion of metal free
- 2. Surface resistively

ANSTEX C-200 : Surface  $10^7 \sim 10^8$ SOLBON T-20 : Surface  $10^{10} \sim 10^{11}$ 

### 3. Physical properties

	ANSTEX C-200	SOLBON T-20
Appearance	light yellow liquid	light yellow viscous liquid
Ingredients	cationic	nonionic
Active Ingredients	50%	100%
Solubility	water•alcohol solubility	water•alcohol solubility

### 4. Usage & Additive percentage

Sprayed or dipped by diluted solution (diluted 50 ~ 100 times by water, ethanol or isopropyl alcohol)

#### 5. Remarks

C-200 is water solvent and recommended C-200X (IPA solvent) for non water based paint.

Manufacturing by: Toho Chemical Industry (Japan)
